*Green(ing) H2 partner organisations invite you to attend the workshop **Member States' Perspective on the EU Hydrogen Accelerator**.*

To tackle climate change and achieve climate neutrality by 2050, while achieving faster independence from fossil fuel imports, the EU must step up and speed up the energy transition, the RePowerEU Plan has set out several action points to do so.

Accelerating the development of the European hydrogen market plays a crucial role but despite the blueprint outlined there are still many challenges and questions that need to be addressed.

In this online event, we will discuss the Hydrogen Accelerator Plan outlined by the European Commission in the RePowerEU Plan and cross-check whether it fits with member states' perspectives and plans, by focussing on the consortium countries' cases: Germany, Poland and Portugal.

AGENDA

9:30 Opening remarks

9:35 The EU Hydrogen Accelerator | Henning Ehrenstein, DG Grow

9:45 Hydrogen Developments in Germany, Poland and Portugal

- Jeanette Uhlig, German Energy Agency (DE)
- Ewa Mazur, Regional Pomeranian Chamber of Commerce (PL)
- Sofia Simões, National Laboratory of Energy and Geology (PT)

10:30 Panel Discussion: How can we better align EU and member states' processes?

- Henning Ehrenstein, DG Grow
- Jeanette Uhlig, German Energy Agency (DE)
- Ewa Mazur, Regional Pomeranian Chamber of Commerce (PL)
- Sofia Simões, National Laboratory of Energy and Geology (PT)
- Esther Bollendorff, CAN-Europe

11:30 End of the event

This workshop is part of the EUKI-funded project **Green(ing) H2 - Engage civil society to make Europe's hydrogen infrastructure green, fair and sustainable.**
